Title: Fortnite Event and Map Tracker

Description: An android app that updates its user on in game events and the map changes on the world's most popular video game, Fortnite Battle Royal. With each new season of fortnite, the game has new events and updates its map, this app will allow users to easily access this information.

Actors: Fortnite players

Functionality:

1. User opens the app
2. User is prompted with two options
 - a. Latest Events
 - b. Map updates
3. Latest Event
 - a. User sees a list of the latest event which will be constantly updated
 - b. Can scroll through each list title, and tapping it reveals more details
4. Map Updates
 - a. Shows most recent Battle Royal map
 - b. User can scroll down to find older version of the map
