Title: NFL Depth Charts

Description: An android app that scrapes the web in order to retrieve up to date depth chart from NFL teams. Intended to be used by fans who also play fantasy football. It will display only the positions that are used in fantasy football and also the teams defensive stats.

Actors: Fantasy Football Players

Functionality:
1. **User opens the app**
2. **User sees a list view of all NFL teams**
   a. **Can Search for a specific team**
   b. **Browse and select a team**
3. **Once team is selected users:**
   a. **Lists all positions and the starters related with a non-ppr fantasy football league**
   b. **User will also see defensive stats**
